[H. S. N. N. Inter College Vrindavan, Mathura /U.P. Board]

[Year of Completion: 2018]

## Skills:

Experience:

Projects

## Project 1

Project Summary: Calculator Application

### Description:

This project entails the creation of a fully functional calculator application using HTML, CSS, and JavaScript. The calculator provides basic arithmetic functionality, allowing users to perform addition, subtraction, multiplication, and division operations. It is designed with a user-friendly interface and responsive layout to ensure compatibility across various devices.

## Project 2

Project Summary: Visit Login Form

### Project Description:

The Visit Login Form project is designed to provide a simple and user-friendly interface for visitors to log in to a website or platform. The form consists of five input fields and a text area for comments, catering to essential user information.

## Project 3

Project Summary: Myntra Clone Website

### Project Description:

The Myntra Clone Website project aimed to replicate the core functionalities and user experience of the popular e-commerce platform, Myntra. It sought to provide users with a seamless online shopping experience for fashion and lifestyle products.
